

Immediate records of attendance for safety, catering CPD, sponsored or mandatory sessions.

Attendance Tracking

Real-time attendance management and insights

Automated scanning

Live data

- Enable immediate records of attendance for everything from safety, catering, CPD, sponsored or mandatory sessions.
- Allows staff to scan badges via the Track App.
- Create rules of attendee entry for controlled sessions.
- Convert iPads and other devices to scanning stations with 'set and forget' technology that automatically opens, closes and switches sessions.
- Use existing event schedule to create automated scanning stations per room.
- Customise session opening and closing times based on event specific requirements.
- Results and data instantly available within the CMS or in the Track App.
- Attendees can view attended sessions via the Event App.
- View session attendance with access to a range of reporting options.
