

Encourage attendees to engage with sessions through live polling, discussions and Q&A.

# Interactive Sessions

## Boost session participation

- Poll using multi-choice, yes/no, or star rating.
- Allow voting on submitted questions and display highest voted on the big screen.
- Show segmented results using attendee demographics.
- Open the conversation with live, chat-room style discussion.
- Show profile names and images with submitted comments and questions.
- Available direct from the Event App and individual session pages or standalone.
- Standalone option includes agenda, about, documents and notes.

## Event branded display screen

- Match event theme with graphics and colours.
- Present questions, comments and graphs that update in real-time.
- Show custom messages and promote sponsors.
- Display in multiple locations throughout and beyond the venue.
- Leaderboard for top performing quiz participants.

## Moderate with a dedicated facilitator panel

- Preview, moderate, create and push content to user devices and display screens.
- Monitor Q&A and discussion feeds.
- Show polling results on audience devices.
- Run multiple sessions concurrently with dedicated session URLs.
- Export all questions and results from the CMS.
